

Karl W. Pils, PE, LEED AP, BD+C

Principal / Professional Electrical Engineer

Karl Pils has over twenty (20) years of experience in Architecture and Electrical Engineering design and consulting. His experience includes K thru 12 Educational Facilities, University Buildings, Commercial Retail Centers, Office Buildings, Tenant Improvements, Medical Office Buildings, Parks and Recreation Centers, Churches, and Multi-unit housing.

Karl holds a Bachelor of Science Degree in Architecture from the University of Kansas. He is national registered through NCEES and registered as a professional Electrical engineer in the states of Arizona, California, Colorado, Nevada, and South Carolina.

Karl's experience in the consulting field has given him a broad background that includes all sectors - governmental, educational, aviation, and private (commercial). Karl is LEED accredited and has completed numerous LEED credited and LEED designed projects including, but not limited to, Northwest Career and Technical Center, Burkholder Middle School, East Career and Technical Academy, Duane Morris Las Office, and Heritage Park Aquatics.

Recognizing the clients' needs for timely communication and response, Karl has developed a strong expertise in project management as well as preparation of construction documents and construction administration. He is also a member of the International Association of Electrical Inspectors (IAEI).
